coppercam alternative When I try bringing in

BEST %this version of CopperCAM is given by a file
COPPERCAM.EXE that is to be copied directly into the
installation directory, default being "C:COPPERCAM"
coppercam.exe A: You can find the Windows installer on the
CopperCAM Download page. If you want to download it as a
file to your desktop, right click on the link above and save it to
your desktop. Otherwise, you can use the v25032016.exe that is
included. Q: How to make the hover slide I have this simple
example that I want to slide when I hover. But the function for
moving the top box is a little bit complicated. It adds a new class
for.box but I have the same class for the background so it will
not work. How can I make a slide effect without CSS3? //my
HTML code //my CSS .top-box { position: absolute; top: 0; left:
0; width: 100%; height: 100%; background-color: red; text-
align: center; } .box { position: absolute; top: 300px; left: 300px;
width: 300px; height: 300px; background-color: #00f; text-align:
center; font-family: Times, serif; } A: You need to use
JavaScript/jQuery and remove the positioning from the CSS,
which you cannot do with positioning. \$(' .top-
box').hover(function() { \$(' .box').animate({ top: '-=100' }, 600,
function(){ // Animation complete. }); }, function() {
\$(' .box').animate({ top: '+=100' 2d92ce491b
