as a WMV or MP4 file on your computer, and can then be played back with any media player on the Windows operating system. VidKeeper VidKeeper is a freeware Windows utility that lets you download any video from YouTube, Dailymotion, Vimeo, and other video sites as a WMV, MP4, FLV, MP3, or OGG file. VidKeeper downloads the videos as they are played on your computer and automatically adds them to a well-organized folder. You can also download videos from the browser by pasting their URL. VidKeeper is free of charge. The application supports direct downloading to local drives, and can optionally convert the files to FLV, MP3, MP4, and more. TubeDownloader TubeDownloader is a video downloader for YouTube.com. It was one of the first free desktop apps for downloading videos from YouTube, and it's still one of the most popular. With TubeDownloader you can download videos as MP4, FLV, or WMV files. You can choose to download only one video, or you can use

Yahoo! Mail is one of the best email providers for the US and Canada. It can even work in China, India, Japan, UK, France, Italy, Germany, Netherlands, Spain, Switzerland, and other parts of the world. All new Yahoo! Mail users get a free Yahoo! Contacts backup with the service. Yahoo! Mail offers an unlimited storage space and quota. That means your mail account

---

doesn't get charged for the storage space. If you have a Yahoo! ID and a Yahoo! account, you get the added benefit of an integrated and easy-to-use calendar system, contacts manager, Yahoo! search, and RSS feeds. Get the Microsoft Office 2013 package from Microsoft for your computer. Description: The next thing is to go to the Microsoft store and buy Office 2013 license. It may not be free anymore, but it is still much cheaper than buying the 2016 version of this software package. It has a lot of fantastic features, including Microsoft Word, Excel, and PowerPoint. You also get the SharePoint 2013, which can be used to sync files and services between multiple computers. When you buy Office 2013, you also get the one-year subscription to Office 365, including 1TB of OneDrive cloud storage. Why is it great to use Office 2013? 1. Free Office 365 subscription The Microsoft Office 2013 has a built-in subscription to Office 365. It gives you 1TB of cloud storage, along with free email accounts. Why is it free?

---

Because you are buying the software package. However, it's not the only subscription service to Office 365. It has three subscription options. Choose the one that suits you best. • F1 subscription: \$79.99 per year • F2: \$99.99 per year • E3: \$129.99 per year

2. Security Each version of Office 365 includes a 14-day free trial, which gives you an opportunity to find out if it is the right software for you.

3. Features Office 2013 offers many features. You get automatic updates, including for the Office apps and their extensions.

4. Compatibility The software is compatible with all Windows 8 and Windows 7. It also works with Windows RT, which is for tablet devices.

Summary If you are thinking about getting your own email or Microsoft Office package, you can buy Office 2013 for your computer and sync it with the cloud. If you are running Windows 10, you can easily update it to the latest version. Otherwise, you will need to upgrade your computer.
