Spin Rewriter 9.0 is the next version of the hugely popular article spinning tool, being released on October 4th, 2018! Spin Rewriter was first launched way back in 2011... Good post. I am facing a little bit of problem with your recommendation: "... In case of the user doesn't want to utilize the tool only for backlinks purpose, he/she wants to use the tool for SEO technique, then he/she is going to use only article rewriting tool because it is the only tool to rewrite the article." Most of the content that you write on your website will eventually be hosted as backlinks. The better backlinks you have, the higher your domain authority will be. In other words, the higher your domain authority, the more competitive your site will be for any search query. Trust Our Manual In this Video you will learn how to create super spun, ready for SEO, and unique articles in less than 30 minutes. There are no tricks or gimmicks just straight up methods. The Backlink Quality Score - This goes hand in hand with the Backlink Score. Basically, this checks your links to see how many points you should be getting for your backlinks. For instance, if you're writing something like "Please look at my new website I have build for my blog" then all you need to do is keep the link as it is, and then you will get a manual link (not automated one). If you are creating a press release, you will need to get a automated link - you can do this by using the article spinners.
