Anson Rabinbach, *The Human Motor: Energy, Fatigue and the Origins of Modernity* (New York: Oxford University Press, 1988). Q: Why is it called "Lykke and Leif"? In Norwegian folklore, the figure Lykke is said to have married the human Leif of the Nibelung saga. However, I've only seen references to them as Lykke and Leif, and not the singular form Leif. Why does it call them Lykke and Leif? Do people call them "Leif" and "Lykke" rather than just "Leif" and "Lykke" and is there a background to this? I've heard it comes from the terms Lykke Lykkeborg and Leif from the Lykke og Leif saga, which might lead me to conclude it comes from there. But even if that was, it would be interesting to know why it was decided to split them up like this. A: Lykke and Leif are both variants of the mythological figure Lyf, which names one the old Lyf in the shape of a wolf and one the silver Lyf. Lyf is a Norwegian name that has existed from the 9th century and is a folkloric character. Old Lyf (Lyf i gamlest etning) – "Wolf-Lyf". Silver Lyf (Sølv-Lyf) – "Silver Lyf". Both of them were the sons of the god Eldgai and thus the names Leif and Lykke and the differences between Lykke and Lyf has to do with Lykke being in the plural and Lyf being in the singular. A topic on the blog Overheard about Lykke and Lyf is also mentioned in this article on the Norwegian television channel TV2. "Lykke og Leif" was the climax of the 23-part TV series "Lykke og Leif"
